

Minnkota Windows Pet Door

Minnkota Windows now offers a Pet Door compatible with all Euro Series Doors. The Freedom Pet Pass energy efficient pet door with its DoubleMag™ seal gives an airtight seal that lab testing showed to be 15x better than requirements for Energy Star human doors. The thick, thermally insulated flap keeps outside temperatures out while keeping your home comfortable and energy bills low.

Clear Locking Security Panel: Secure the door with strong acrylic locking security panel

Cellular PVC Frame: Strong, waterproof, mold-resistant and 3000x more insulating than metal frames

Rugged Flap System: The insulated flap system is made from marine-grade canvas, SBR rubber and commercial roofing grade TPO

DoubleMag™ 2-in1 Flap System: Has face-to-face magnet seals on the frame and the flap system to achieve an airtight seal.

Simplicity = Longevity

No electronics and no moving parts.
Just years of performance.

Size	Pet Opening	Breed
Small	6" x 10"	Shi Tzu
Medium	9" x 13"	Beagle
Large	11" x 17"	Lab
